March 19, 2026

The Honorable Tom Cole
Chair
Appropriations Committee
H-307 The Capitol
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
Appropriations Committee
1036 Longworth House Office Building
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Tualatin Valley Fire District (TVWD) Rosander Reservoir and Pump Station Project in Fiscal Year 2027. The entity to receive funding for this project is Tualatin Valley Water District, located at 1850 SW 170th Avenue, Beaverton, Oregon 97003.

The funding would be used to replace aging and seismically vulnerable water infrastructure. Federal funds would support construction of replacement reservoirs and a pump station necessary to ensure reliable, resilient water service.

The project is an appropriate use of taxpayer funds because the Rosander Reservoir and Pump Station Project will strengthen the reliability and resilience of drinking water infrastructure serving communities in Oregon's Sixth Congressional District. Residents and businesses in the district depend on TVWD for safe and reliable water service. Replacing the aging Rosander facilities will reduce the risk of service disruptions caused by infrastructure failure or a major seismic event. The project will construct two new seismically resilient reservoirs and a modern pump station that will increase water storage capacity and improve system reliability. These improvements will ensure that households, schools, healthcare facilities, and local businesses in TVWD's service area will continue to receive dependable drinking water during both normal operations and emergency situations.

The project has a federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

MEMBER OF CONGRESS
